

P. SRI SAI CHARAN

AI/ML & Full-Stack Engineering · B.Tech Artificial Intelligence & Machine Learning · Vardhaman College of Engineering
Hyderabad, India | psrisaicharan5@gmail.com | [linkedin.com/in/pedaboini-sri-sai-charan-27389a27a](https://www.linkedin.com/in/pedaboini-sri-sai-charan-27389a27a) | github.com/Charan666-one | charan666-one.github.io/portfolio

SUMMARY

Third-year B.Tech AI/ML undergraduate with hands-on experience designing end-to-end machine learning systems: anomaly detection pipelines, computer vision classifiers, and REST/WebSocket-backed full-stack applications. Demonstrated problem-solving ability through 105+ LeetCode problems solved (33 Medium, 6 Hard; Contest Rating: 1415). Seeking ML and SWE internship opportunities to contribute to real-world AI/ML systems.

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning Aug 2024 – May 2028
[Vardhaman College of Engineering, Hyderabad](#) **CGPA: 8.45 / 10**
Relevant Coursework: Data Structures & Algorithms · Machine Learning · Deep Learning · Computer Vision · DBMS · Operating Systems · Software Engineering

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, TypeScript, SQL **AI/ML:** Scikit-learn, TensorFlow, Pandas, NumPy, OpenCV, Isolation Forest, Random Forest, Feature Engineering, Anomaly Detection, Classification, Regression, XAI
Backend: Node.js, FastAPI, REST API, WebSockets, Prisma ORM, SQLite **Frontend:** React, TypeScript, TailwindCSS, HTML5, CSS3
Tools & Concepts: Git, GitHub, Jupyter, pytest, System Design, Data Structures & Algorithms

PROJECTS

Sports Medicine & Anti-Doping Intelligence Platform · Full-Stack AI System Jan 2025 – Present
Stack: Python · Isolation Forest · Random Forest · FastAPI · Node.js · WebSockets · React · TypeScript · Prisma ORM · SQLite · OCR

- Designed and implemented a full-stack biomarker monitoring system: FastAPI REST layer for data ingestion and athlete management, with ML inference results rendered on a React/TypeScript dashboard.
- Built a two-stage anomaly detection pipeline — Isolation Forest for per-athlete rolling-baseline anomaly detection, followed by a Random Forest classifier assigning low/medium/high risk levels.
- Integrated Explainable AI (XAI) using Scikit-learn feature importances to surface which biomarkers drove each flagged result inline on the analyst dashboard.
- Implemented push-based WebSocket alert delivery, pytesseract OCR for lab PDF ingestion, and persistent data layer via Prisma ORM and SQLite.

AI Forest Fire & Smoke Detection · Computer Vision Pipeline 2024
Stack: Python · OpenCV · Scikit-learn · HSV Color Segmentation · Morphological Filtering

- Built a multi-stage computer vision pipeline: HSV color-space masking and morphological filtering to isolate candidate regions, then a supervised classifier trained on hand-engineered features with threshold tuning to minimize false negatives.
- Applied modular software design — separated preprocessing and classification stages for independent component swapping, demonstrating sound ML system architecture.

AI Athlete Performance Analyzer · ML Regression 2025
Stack: Python · Scikit-learn · Pandas · NumPy · Regression · Feature Engineering

- Engineered features from raw training logs (load, volume, recovery metrics) and trained regression models to predict near-term athlete performance trends; validated on a held-out test split.

Shortify — URL Shortening Service · Backend Engineering 2024
Stack: Node.js · REST API · JavaScript

- Designed a layered backend service for slug generation, collision handling, and redirect resolution, demonstrating production-style system design with clear separation of concerns.

ACHIEVEMENTS & PROBLEM SOLVING

- LeetCode:** 105+ problems solved — 33 Medium, 6 Hard; Contest Rating: 1415; active competitive programming practice.
- GitHub:** Multiple public repositories spanning AI/ML and full-stack projects; consistent commit history and documentation.
- Portfolio:** Personal technical portfolio deployed at charan666-one.github.io/portfolio.
- Academic Standing:** CGPA 8.45/10 in a competitive B.Tech AI/ML program.
